

PARTNERS

Partner since 2024

At PPG, we work every day to develop and deliver the paints, coatings and materials that our customers have trusted for more than 130 years. Through dedication and creativity, we solve our customers' biggest challenges, collaborating closely to find the right path forward.

2024

Partner since 2022

At Dow, we believe that connecting chemistry and innovation can generate new ways to solve challenges and exceed customer expectations. We believe that taking the extra step to be socially responsible does not hold us back, but instead sets us apart.

2022

Partner since 2020

We have a tradition of excellence that has been built by passionate, talented people who are driven to make a difference. The pride we take in our work has made us one of the world's leading industrial gases companies, employing more than 23,000 people in over 50 countries worldwide.

2020

Partner since 2018

Established more than 130 years ago, we are a leading creator and manufacturer of food, beverage, health & biosciences, scent and pharma solutions and complementary adjacent products, including cosmetic active and natural health ingredients, which are used in a wide variety of consumer products.

2018

Partner since 2014

Westlake makes chemical and plastic products, which in turn make life better for people every day. We are a quality manufacturer and dependable global supplier of petrochemicals, plastics and building products.

2014

2024

an Air Liquide company

Partner since 2024

Airgas®, an Air Liquide company, is a leading U.S. supplier of industrial, medical and specialty gases, as well as hardgoods and related products; one of the largest U.S. suppliers of safety products; and a leading U.S. supplier of ammonia products and process chemicals.

2022

We create chemistry

Partner since 2022

BASF Corporation, headquartered in Florham Park, New Jersey, is the North American affiliate of BASF SE, Ludwigshafen, Germany. BASF has approximately 16,700 employees in North America.

2021

Partner since 2021

The company serves a variety of end markets such as chemicals & energy, food & beverage, electronics, healthcare, manufacturing, metals and mining. Linde's industrial gases and technologies are used in countless applications including production of clean hydrogen and carbon capture systems critical to the energy transition, life-saving medical oxygen and high-purity & specialty gases for electronics.

2018
